

# Sysvideo NVR/DVR CMS Guide

## How to auto connection video on CMS start?

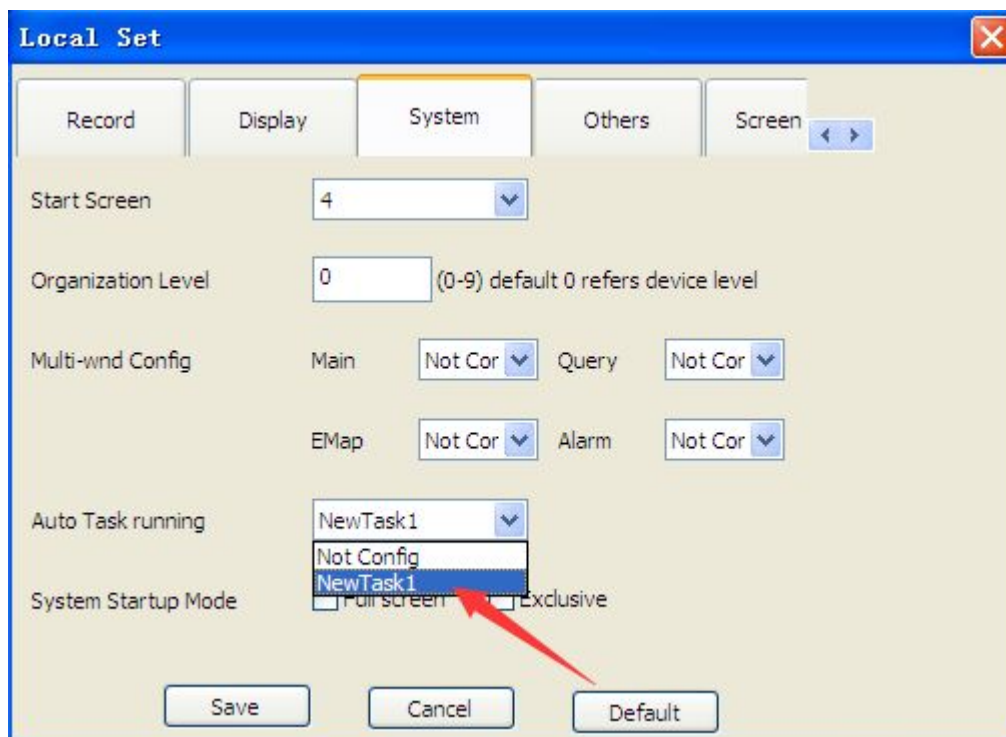

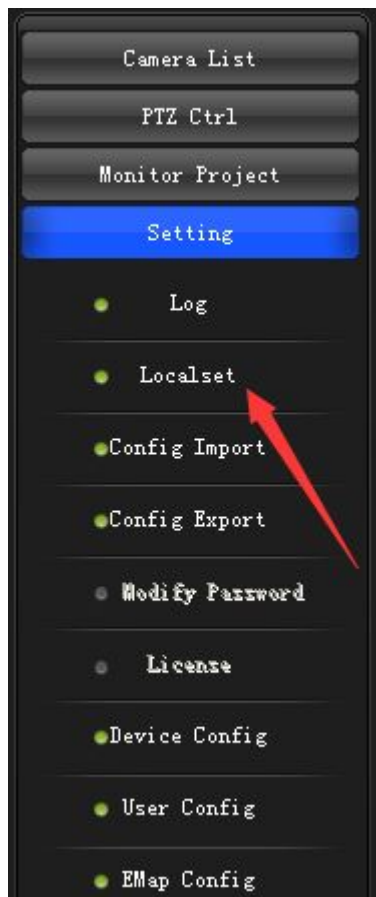

### 1. You need to add NVR on CMS.

## 2. After you add NVR, please create a task, for example, New Task1:

## 3. Go to Setting menu, open Localset menu, then choose "System" tab, choose the task you want to auto task running, then save.

Now, it will auto connect NVR and display the video when CMS start. If you have any question, please contact with Sysvideo technical engineer.
